ANIMA

welcome to the evolution

INNOVATION

Pioneering in working with shared sides in planned furniture. For Anima, in addition to side sharing, which generates raw material savings in the furniture composition, we have enhanced the concept of covering these sides, aiming for a cleaner and timeless design.

EXCLUSIVE

Composition of cabinets with full backs and coating on both sides. Also, a new internal fixing system designed to ensure greater visual cleanliness and durability.

ELEGANCE

Greater utilization of internal space, modules with larger dimensions. In addition, Anima features shelves with 25mm thickness and hidden supports, standing out for their presence, robustness, and resistance.

EVOLUTION

Anima was conceived with the best accessories and hardware using European technology, such as hinges with extra coating in titanium finish and new articulators, combining avant-garde and innovation in the projects.
