Inspired by industrial kitchens, it creates a gourmet atmosphere that combines the sophistication of stainless steel with the warmth of wood. With the INO line, you can create incredible and authentic environments, just as your home should be!

INNOvative, just like your home should be!

The INO Line is a unique and exclusive proposal for planned kitchens with doors and panels in stainless steel, developed and manufactured exclusively by Evviva, leveraging over 50 years of Bertolini Group's expertise in working with steel.

It is not just an aesthetic innovation; INO also features a series of important details to meet all the functionality a gourmet kitchen needs to offer, including:

- .High durability and resistance.
- .Stainless steel is a hygienic material, easy to maintain and clean.
- .Doors with an internal structure that provides stability to the piece and smooth sound during use.
- .Ergonomic design that eliminates sharp corners on the furniture.
- .Doors are also coated with steel on the inside.
- .Environmentally friendly, it is 100% recyclable.
- .Exclusive handle that matches the industrial aesthetic of the collection.
