paths that connect stories

Imagine opening the door to a world where every choice we make is an invitation to new experiences and surprising paths. Just like in life, the decisions we make for our home shape the environment around us, transforming it into a reflection of who we are and what we value. Each choice is a step toward creating spaces that welcome us and inspire us to live every moment with greater intensity.

The Evviva Stima Collection is born from the desire to make environments an extension of ourselves, where every detail becomes part of our story. With a unique harmony between shapes and textures, Stima offers elements that integrate into the space, engaging with the environment in a subtle and sophisticated way.

doors and coverings for interior architecture

With a keen eye for sophistication and functionality, Stima is more than a collection of doors and coverings for interior architecture; it is an invitation to the perfect integration between materials and textures. Its surfaces blend seamlessly with environments, revealing subtleties and elegance in every detail and creating spaces that reflect authenticity and refinement.

Each door and finish in the Stima Collection has been carefully designed to integrate naturally and fluidly into the environment. The elements harmonize organically, creating the feeling of a continuous and cohesive whole, where every detail contributes to an atmosphere of balance and unity within the space.

perfect integration in sophisticated environments

attention to detail for perfect surface mimicking

The Stima Collection offers a wide range of options to create environments that are both sophisticated and welcoming. With the freedom to choose every detail, you can compose a space that reflects your identity. Stima redefines integration and elegance in interior architecture, revealing new paths and creating spaces that tell stories.

Possibilities of the Stima Collection:

- Various configurations of hinged and pivot doors, offering more dynamic and functional options;
- Sliding systems, combining practicality and elegance;
- Sliding doors in “mashrabiya” style that accompany partitions and panels for walls and ceilings, bringing a touch of exclusivity and sophistication to spaces;
- Doors aligned with panels, without visible frames, ensuring perfect integration into the environment;
- Option for doors with a centered frame and finishing details for perfect harmony with the environment;
- Concealed hardware that enhances the clean and modern aesthetic of the design;
- Various system options for sliding doors, offering flexibility for different projects and needs.
